

# AMERICA'S BOATING CLUB OF DECEPTION PASS

May 2022

## SHRIMPING SEASON IS HERE, BUT DON'T BLINK, YOU'LL MISS IT!

The America's Boating Club (ABC) of Deception Pass is offering a free how-to seminar on Shrimping in Local Waters, to be held virtually via Zoom, Tuesday, May 17 from 6:30 to 8:30 p.m.

Squadron members can learn how to catch shrimp in the waters surrounding Whidbey and Fidalgo islands, as well as how to buy the necessary equipment, how to properly rig your pots, avoid losing your gear and catch more shrimp.

According to course instructor Jerry Liggett, shrimping season is very short – in some locations, only two days for a few hours each day, so preparation is key to successful shrimping.

Jerry said that Spot shrimp are the largest shrimp species found in local waters, and are tasty and fun to catch. However, "the learning curve can be frustrating. In addition to equipment advice and licensing requirements and regulations, we'll gladly share our experience, as well as shrimping lore and opinions on the best locations, times and tides."

Liggett said that one of the most frequent questions he's asked is, "I've caught the shrimp, now what?" He promised to share some preparation and cooking advice as well. The Zoom log-in information will be emailed to members prior to the event date. Any nonmembers wanting to attend can contact Jerry at [jliggett4@hotmail.com](mailto:jliggett4@hotmail.com).

## Shrimping Season Opens May 25 in Many Areas of Sound

This information was obtained from the Washington Department of Fish & Wildlife. For more detailed and complete information, visit <https://wdfw.wa.gov>

Many areas of Puget Sound will open for recreational spot shrimp fishing beginning May 25.

Also known as prawns, spot shrimp are the largest shrimp in Puget Sound and may grow up to nine inches in length, and the popular spot shrimp fishery is an exciting spring-time activity.

In all areas, the daily limit is 80 spot shrimp; with a total daily weight limit of 10 pounds (whole shrimp) all species combined.

### What's Up With the Weather?

Maybe you've heard the old joke about how God made weather forecasters to make economists look good. While it may have rung true in the past, today's modern forecasting tools make weather prediction stunningly accurate.

Discover these new forecasting tools and learn how to use them by taking Modern Weather Forecasting, a seminar from United States Power Squadrons, America's Boating Club.

## Dreaming of Cruising the San Juan Islands?

Deception Pass Squadron Members have been cordially invited to participate in the upcoming "Cruising the San Juan Islands" seminar, courtesy of the Friday Harbor Power Squadron. The seminar is free to members of the America's Boating Club/Power Squadron members, but you must register in advance at [www.abcsji.org](http://www.abcsji.org).

### Education Update

**Jerry Liggett reports that the Deception Pass squadron recently held its first live ABC class in two years! According to Jerry, through the painstaking preparation and presentation by the instructors, there was a one hundred percent pass rate.**

**Special thanks to Chip and Reg White, Jim Wagner, Steppe Williford, Shawn Haugen, Fred Lemke, Bob and Karen Nelson for their committment to the squadron and safe boating.**

**We haven't quite made the decision to hold all squadron seminars and courses all in-person, as virtual ability makes it possible to reach those who can't attend in person.**

**"Blessed are the flexible, for they shall not get bent of shape." Thanks for hanging in with us.**
